

Over the past 3 years, Progressive Yamhill has been an outlet to translate our fear, frustration, and sadness over national headlines into real, LOCAL action.

We've grown from 25 members to over 700, built a strong network of affiliated groups, and we've already made a big difference! From protests and rallies to supporting our immigrant neighbors, to registering voters and knocking doors, we've shown that we can create community and positive change right here at home.

In 2020, we'll need to do more than ever, but before then, join us in reflecting on the impact we've had since Nov 13, 2016.
